Marge ready to go

Marge Lopez

By Owners: Brea and Casey

We adopted Marge eight years ago from one of the local shelters. We were told that Marge was six years old but she acted like a puppy. There were times when she would get all of the dogs doing laps around the house and Marge's laps would include a trip across the top of the couch.

First Annual Brewers Game

Becca and I normally only have an opportunity to meet our human clients once or twice, so we would like to set-up our first annual Brewer's Game get-together with our clients. We would like to start planning early in order to ensure we will have enough tickets and as we look into reserving a Pavilion for tailgating as well.

There will be more details in our next month's newsletter, but we are looking preferably at organizing a weekend game, whenever a pavilion is available. We hope that everyone can join us.

New Website

Our new website is now up and running. Feel free to check it out at www.allardpetsittingllc.com. Please visit our guest book and leave a comment. Thank you very much and enjoy!

continued from page 1

Initially we could not even get her in the house and once we did if anyone raised his or her voice she would hit the floor and cower. She was scared to death of the cats and would start clicking her teeth and chasing them. It took two years for her to be in the same room with the cats, now they are best friends. After a few short weeks at our home, her fear of us disappeared and we were able to see the playful silly girl she was.

She had many allergies that made her life miserable and after several tries, we finally found a vet that found the underlying cause of her allergies so she could be comfortable. Marge has developed arthritis slowly over the years and now her knees are very bad and she is on daily medication. Three years ago we built stairs to our bed as she was no longer able to get up on her own and she would never consider a different sleeping option. At the age of 12, she needed one knee replaced and thank God we did because that one works the best. Marge has defied all odds at the tender age of 14 (Shar-Pei's normally do not live past 10). Marge is much crabbier these days but thank fully her bark is bigger than her bite.

She now lives with two young children and several dogs. She complains frequently but at the same time would never leave the center of the action to retreat to a quieter spot in the house. She is still so goofy and seems to talk to me at times even though I still have trouble understanding her. She just keeps talking until I get it right.

We will be out of town:

- Friday, March 12th thru Sunday, March 14th

- Friday, April 23rd thru Sunday, April 25th

We are very sorry for the inconvenience!
